Report of Finance Committee  
For Fiscal Year  
Ended June 30, 1943

ANNVILLE, PENNSYLVANIA

Presented to the Board of Trustees at their  
Meeting November 6, 1943

A Supplement to this report giving figures for the  
school year 1943-44, to May 1, 1944  
will be submitted to the Board at its meeting on May 19, 1944

Entered as Second Class matter at Annville, Pa., under the Act  
of August 24, 1912

To the Members of the Board of Trustees of Lebanon Valley College:

The Finance Committee presents the following report of the business operations of the College for the fiscal year ending June 30, 1943. This report shows the total income to be \$223,355.02; the expenses to be \$208,766.43 with a net profit before deducting additions to plant from current funds of \$15,222.96. Plant additions paid out of current funds amounted to \$9,834.45. The net profit after deducting additions to plant from current funds is therefore found to be \$5,388.51, which is the amount by which the deficit is decreased in the year covered by this report.

Included in the additions to plant are supplies and equipment for chemistry laboratory, shelves, bookcases and books for library, equipment for physics laboratory and repairs to Kindt Property for Infirmary.

The activities of the Finance Committee were reported upon in detail at the May 21, 1943 meeting of the Board, when the minutes of the meetings held were read.

Under the supervision of Lionel D. Edie and Company a comprehensive program of re-investment of securities in the Endowment Fund was followed with the avowed purpose of accomplishing stability of principal and continuity of income which resulted in a decrease of percentage of bonds held and an increase in percentage of preferred and common stocks held. The elimination of doubtful quality issues of both classes has been very considerable as is indicated by the following comparison:

	<u>May 1, 1943</u>	<u>May 2, 1942</u>
Percentage of doubtful quality bonds & preferred stocks	49.3	65.4
Percentage of doubtful quality common stocks	10.1	12.2

The accomplishment of a very material improvement in quality necessarily involved some reduction of income on a twelve months basis.

Whereas a year ago the Lionel D. Edie and Company appraisal of the Endowment Fund indicated that no securities could properly be classified as backlog, their current appraisal of the Fund reveals that \$177,282.00 of present market values may be included in the backlog category.

Including the adjustments made during the year, the market value of the securities increased by \$96,547.00.

At the time of this report the percentage of preferred stocks in the Endowment Fund increased from 3.5% a year ago to 23.6%; bonds decreased from 61.7% to 41.3%; common stocks increased from 34.8% to 35.1%.

The rate of income for the past year was 3.96%.

## AUDITING COMMITTEE REPORT

To the Board of Trustees of Lebanon Valley College:

Gentlemen:--As has been the case for a number of years past, your auditing committee secured the services of a certified public accountant to audit the accounts of S. H. Derickson, Treasurer of the College.

The audit was made by Charles E. Procasco, C.P.A., of Harrisburg.

We submit as our report his certification, which follows:

P. B. Gibble

M. R. Fleming

J. E. Oliver

Committee

### REPORT OF THE AUDITOR

Board of Trustees,  
Lebanon Valley College,  
Annville, Pennsylvania.

Gentlemen:

I have made an examination of the accounts of Lebanon Valley College for the year ended June 30, 1943, also the balance sheet, statement of income and expenses and relative statements included in the foregoing report of your Finance Committee.

In connection therewith, cash receipts and disbursements for all funds were audited and cash balances confirmed. Notes and accounts receivable were not confirmed but verified, and are shown at book values, with adequate reserve provisions for uncollectibility of the latter. Plant additions were determined to be proper capital charges.

Investments were examined or otherwise accounted for. Acquisitions to June 30, 1942 are stated in the aggregate at an amount equivalent to the book value of the funds which they represent. Pursuant to Finance Committee action, securities purchased subsequent to June 30, 1942 are shown at cost. By similar action, securities sold within the current year were credited to the investment account at book values. A decline in the endowment fund of \$119,603.08 resulted from these transactions.

Notes payable were confirmed and all other ascertainable liabilities computed and included in the accompanying balance sheet.

In addition thereto, I made a review of the accounting procedures of the College and examined or tested accounting records and other supporting evidence by methods and to the extent deemed appropriate, but did not make a detailed audit of the transactions.

In my opinion, the accompanying balance sheet, statement of income and expenses and relative statements, present fairly the financial position of Lebanon Valley College at June 30, 1943, and the results of its operation for the year ended that date, in accordance with accepted principles of accounting applied on a basis consistent with that of the preceding year.

Respectfully submitted,

C. E. Procasco,  
Certified Public Accountant

Harrisburg, Pennsylvania  
September 30, 1943
